The New Hampshire Community Loan Fund provides people and communities with the financial, human, and civic resources they need to be economically secure. We offer loans, coaching, and guidance to people, businesses, nonprofits, and communities to enable them to own and preserve affordable homes, grow small businesses, access cost saving clean energy, and provide strong community services.

Our neighbors-investing-in-neighbors model turns donations and impact investor funds into loans and services for homeowners, small businesses, nonprofits, and communities. Since 1983, we have helped purchase or preserve over 11,000 affordable homes and added coaching and guidance loan services that help borrowers navigate repayment.

The Community Loan Fund was one of the first Community Development Financial Institutions (CDFI) in the nation and has received industry awards and recognition for social impact, financial strength, and performance.
