

New Hampshire  
**COMMUNITY**  
LOAN FUND

Katie McQuaid

Senior Vice President of Philanthropy & Community Engagement

Katie joined the New Hampshire Community Loan Fund in 2023 and oversees efforts to connect and collaborate with the community through our Philanthropy and Policy programs.

The lifelong Manchester resident developed a deep understanding of the issues facing N.H.'s families during nearly two decades at the N.H. Union Leader, where she started as a reporter and eventually held leadership roles across the statewide media company.

Prior to joining us, she learned the vital role financial institutions play in community development as Vice President of Business Development at Primary Bank.

Katie is a founding board member of the Nackey S. Loeb School of Communications and the Manchester Young Professionals Network, now a program of the Greater Manchester Chamber of Commerce.

The New Hampshire Community Loan Fund provides people and communities with the financial, human, and civic resources they need to be economically secure. We offer loans, coaching, and guidance to people, businesses, nonprofits, and communities to enable them to own and preserve affordable homes, grow small businesses, access cost saving clean energy, and provide strong community services.

Our neighbors-investing-in-neighbors model turns donations and impact investor funds into loans and services for homeowners, small businesses, nonprofits, and communities.
